Career History

September 2007 – ongoing, Rippleffect

Working onto a variety of projects from initial concepts, through development to completion.

Experience of working for brands such as NHS, Nickelodeon and Millies Cookies; across a variety of online solutions including websites, banners/game campaigns. Through this role I have gained great experience in front-end web design, conceptual thinking, information architecture, project planning and client management.

October 2006 – August 2007, JJB Sports

Responsible for the maintenance of the main JJB website along with JJB fitness, Everton and Rangers Megastore sites. This included creating banners, not only for internal use but also for use on the Sky Sports website. Working within the marketing department, a major part of my role was creating and sending out a variety of email marketing campaigns, along with preparing and taking photography for web use.

June 2005 – October 2006, Ufindus.com

Working on a variety of projects from initial design concepts through to completion. Working to tight deadlines, gaining confidence communicating and working with clients.
